Re: Our File 582-583, PM 520

Dear Thelma:

Attached hereto is a revised version of the  
above-identified application.

As you can see, the application has been broadened  
to include the use of burn-rate accelerators and decelerators  
in various manners. However, in the light of Les Inskeep's  
letter of November 15, 1968 and the memorandum of M. F. Kelley  
attached thereto, I believe the entire subject should be  
discussed before any application is filed thereon.

Sincerely,

Howard K. Kothe
